HyTECH
POSTERS

Feel the fusion of digital precision and the luxurious texture of fine-art printing. Unlike ordinary poster technologies like lithography, we employ cutting-edge large format printers boasting eight vibrant colors plus white, delivering unparalleled detail at up to 1200 dpi resolution. Our specially crafted CMYK pigments provide unmatched stability, tailored for real-world excellence. Revel in the brilliance of our colors, guaranteeing not just the expected quality and performance, but also enduring longevity comparable to museum-grade Giclée prints.

ScreenTECH
POSTERS

What sets our ScreenTECH™ poster apart is the seamless fusion of cutting-edge digital screening and time-honored screenprint techniques. This results in a masterpiece that not only preserves the essence of unforgettable events but also elevates the entire fan experience. Gone are the days of settling for ordinary memorabilia. Our ScreenTECH™ poster is crafted to rival traditional screen-printing methods. Every detail is thoughtfully designed to encapsulate the magic of the moment, ensuring that each poster becomes a treasured memento for fans everywhere.
